Hi Hassan,

 I apologize for the inconvenience caused. I realize this is disappointing that there are users who exhibit inappropriate behavior and make false allegations, our feedback to you isn't designed to be accusatory in nature.

 We understand feedback from users may not always be 100% accurate. Our goal here is to simply make sure you are aware of the type of feedback you received and hear your side of the story as well.

 You are a wonderful driver to the Uber team. We truly admire your hard work in providing extraordinary service to our riders.

 We've noticed that you have a lot of good feedback here. We appreciate you for continuing to do what you are best at.

 Also, completing 7,505 trips is no small feat, so we thank you for every single one of them. Taking a look at the feedback provided by your passengers, it is clear that your riders enjoy taking trips with you.

 Thank you for being a valued driver, and we hope for your understanding and cooperation in this matter.
